## New Build - Important Information

We are very excited to announce that construction on the new Limetree is nearly complete, and the home is now due to open in January 2024.

Once the new site is open, Limetree will offer solely short breaks. All of the beds at our new home will be dedicated for this purpose.

The outer walls and roof are now up and work is being finalised on the interior and the adapted sensory garden. It is all looking fantastic and we can't wait to open!

We are all very excited by the changes and look forward to seeing what the future brings in our new home.

We were originally scheduled to be up and running this October, but there have been unforeseen delays in the construction process which has resulted in this being pushed back.

We will soon be announcing an open day for all parents and carers to come and see the new home before it opens.

Tea and coffee will be provided.

We hope to see you all there!

## Fully-Adapted Outdoor Play

As you can see, work is progressing nicely at the new Limetree site. This is how the adapted sensory garden is currently looking as construction enters its final stages.

The garden will feature fully adapted equipment and will be accessible to children of all abilities who access our short breaks service.

The play equipment is designed to accommodate all; with accessible and wheelchair user swings, an accessible roundabout and a lower level trampoline.

Also featured is a wheelchair user track and a sensory garden wall!

## Starting to Take Shape!

As the final work continues on the garden and on the inside, the new Limetree is really starting to take shape.

The new home has been a project that has been in development for many years and to be so close to completion is so exciting.

Pictured below is the final floor plan for our new home. Other plans are displayed on the wall of our foyer, if anyone would like to see then please just ask!

It has been designed to give all of the amazing children who stay with us the very best experience and ensure they love their short breaks at Limetree. We can't wait for you all to see!
